Allowable Subject Matter

1. Claims 1-19, 21 and 22 are allowed.
2. The following is an examiner's statement of reasons for allowance: After very careful study of the pending claims and the applied reference of Minten, Randolph and Yoshida, examiner concluded the applicant's claimed structure of the coating is different and not obvious over the applied prior art. Specifically examiner agrees with applicant's analysis presented on page 10-14 of the response submitted on June 29, 2006. In light of this analysis, it is agreed that Minten does not disclose or suggest the structure as claimed. To be specific, a printed wiring board with the limitation "an electrically conductive coating on said nonconductive surface, said coating including electrically conductive carbon having a mean particle size not greater than about 1 micron and a water-dispersible organic binding agent," in combination with other recited limitations of the base claim 2 has not been disclosed or suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ishwar (I. B.) Patel whose telephone number is (571) 272 1933. The examiner can normally be reached on M-F (8:30 - 5:00).

Art Unit: 2841
